

COMPANY PROFILE PT. EXCELLENCE QUALITIES YARN.

PT Excellence Qualities Yarn (PT EQY) is a producer of premium quality yarns (synthetic fiber) with the latest technology. PT Excellence Qualities Yarn founded in 2012 and the manufacturing operations started in 2013. It is located in Sidoarjo, East Java, Indonesia.

PT Excellence Qualities Yarn vision is becoming a Market Leader on High Quality Yarn products. The company missions are producing good quality yarn to meet the customer needs by using the Latest and the Best Technology.

Through its signature products, PT Excellence Qualities Yarn caters to the needs of the high end textiles segment, having secured market appreciation for an unwavering commitment to product quality by sourcing fibers from international standard suppliers, investing in frontier technology and abiding by strict production guidelines.

PT Excellence Qualities Yarn produces Synthetic Yarn with 3 different Spinning Technologies:

- Vortex (MVS)
- Open End (Belcoro)
- Ring Spinning

Our Yarn products are various, such as:

- Viscose Rayon, Modal, Tencel
- Polyester
- Blended Yarn

All of these Yarns are being produce for; Single/Double/Triple.

PT Excellence Qualities Yarn presently serves clients in all major continents and dedicates 80% of total production to export markets and 20% for local Indonesia market. As a producer of premium quality yarns, the company continues to explore opportunities in mature textiles markets that value EQY yarn not as a commodity but instead as a specialized product.
