Tropikal Jaya is a specialist in agricultural products, fruit and vegetable products and their processed products. Partner with Tropikal Jaya, and you don't have to worry about our legality and the quality of the products, we guarantee the products we provide. Our production house has been registered with the Indonesian Ministry of Agriculture and food safety department, ensuring that our products meet good standards. Plus, we can provide a wide range of products to fit your needs. Let us be your partner in sourcing the best products from Indonesia. Indonesia is a tropical archipelago with lots of volcanoes, fertile soil produces high quality products. Prove it for yourself.

Fresh Product

Pineapple (Queen)

Pineapple Queen has a sweet, slightly sour and savory taste. The aroma of the pineapple is very pleasant. The yellow color is very attractive, deep yellow to golden yellow. It is high in antioxidants, isotonic, and excellent for curing overweight. With a plantation area of close to 10,000 hectares, the harvest of all grades can reach 100 tons per day, pineapples are harvested all year long, not seasonal. Pineapple fruit is our flagship fresh product.

Pineapple Smooth Cayenne has a sweet and slightly sour taste. It has a low-fiber, juicy flesh texture, no hard core and easy to cut, perfect for fresh eating. This variety is very popular in the market. Tropikal Jaya has access to a very wide supply so you don't need to worry about the quantity and quality of pineapple fruit you need. We provide a guarantee on our products.

**Pineapple
(Smooth Cayenne)**

Mangosteen

Our mangosteen having purple skin and juicy white flesh with fresh sweet taste with a sugar content of 17-20 brix and smooth fruit skin, our mangosteen is very good for the body because it is rich in antioxidants and fiber that are good for health.

Harumanis mangoes or Gadung mangoes are known for their soft aroma and sweet with sweetness level in 15-21 brix, has juicy flesh. Grown in the tropical climate of Indonesia, has fruit weight of around 300 - 550 grams. The dominant flavor is sweet without any sourness, making it suitable for sweet taste fruit lovers than other mango varieties.

Mango (Harum manis)

Mango (Podang)

Mango Podang (*Mangifera indica*) has an attractive yellow and with a few red spots at the base of the branches, become a special attraction. You just have to get a little closer and smell the wonderful aroma of the podang mango fruit. The fruit weight is about 250 grams. The flesh is soft like ice cream and tastes delicious with a fresh yellow flesh color.

Dragon fruit or *Hylocereus polyrhizus* that we cultivate is the Sweet Red variety which has the highest demand among other types of dragon fruit. Through proper cultivation practices. Long shelf life and sweet flavor red dragon fruit with sweetness level in 15-23 brix.

Dragon Fruit

*Notes: We can provide other products other than those mentioned above.
