HISTORY

At the beginning of the establishment, it was a national private company engaged in textiles with the results in the form of yarn and weaving products under the name of **PT. Kanindotex**. Start in 1989 with a single Spinning business unit, with a capacity of 60,000 spindles per spindle. The company started operating precisely dated August 8, 1990.

On October 2, 1995 the company name changed to PT APAC INTI CORPORA.

Within a relatively short period of less than 20 years, the company **PT. Apac Inti Corpora growing rapidly** from one sub business unit Spinning into 7 sub business unit Spining / spinning (processing of cotton fiber into yarn), and 3 sub business unit Weaving and Denim (processing of yarn into cloth / weaving).

In order to remain competitive to become superior PT. APAC INTI CORPORA offering **superior products high quality yarn, greige fabrics and Denim** to the market. Yarn and fabric product yields PT. APAC INTI CORPORA has gained recognition of the Global customers, therefore companies have implemented a 30% export their products to customers worldwide. The application of clean technologies with facilities for machine - a **modern machine environmentally friendly** and still appreciate customers make this company remain reliable as a principal national and international textile business. PT. APAC INTI CORPORA has achieved the Quality Management System certificate ISO: 9001 (Quality), ISO 14001 (Environment), and ISO 50001 (Energy)

With over 25 years of experience in textile industry, **PT APAC INTI CORPORA (APACINTI)** has transformed itself into a giant textile and textile product manufacturer with **the world's biggest integrated processes at a single location**, including Spinning, Weaving, Knitting, Garment, Dyeing-Finishing, and Laundry. APACINTI's factory is located at a strategic and advantageous place in Bawen, Semarang, Central Java, Indonesia. APACINTI operates with total workforce of 6.500 people.

APACINTI delivers 30% of its massive & world-class quality products to international market, to over 70 countries in 5 continents worldwide, and 70% to domestic market. We offer the best quality, competitive price and on time delivery service.

GREIGE

Material/Yarn Used

- **Spun yarns** in both warp and weft. → *Spun yarn based.*
- **Polyester filament yarn for the weft** for quite a few sorts.

Product portfolio

- 100% cotton carded and combed; **Chinos Pants**;
- 100% spun polyesters;
- 100% viscose;
- Blended poly / cotton (P/C CVC), viscose / cotton (RC), and poly/viscose (PV).
- Polyester fabrics and their blends, we normally use semi - dull polyester fiber. However, we also use **semi dull optical bright fiber (SDOB)** in Poly/Cotton blends on request.

Weaves

- **Basic weaves** like 1/1 (plain), 2/1 (twill), 3/1 (twill) & 4/1(satin).
- **Special weaves** such as Dobby, Broken twills, Waved twills, Hopsacks, Cords, Pique, Pique cords, Honey comb, Bedford cord, Ribstop, Herringbone, Ribs & stripes, Half Panama, Ducks, Ottoman, Crepes, crepe effects (Crepon) and other fancy weaves.

Fabric Width.

- Narrow width: 58 - 71 inches. → **FRINGE** selvedge
- Wider width: 110 - 130 inches. → **FRINGE & CLOSED** (tucked-in) selvedges.

Monthly production consists of around **180 different sorts of fabrics**, and since inception, we have produced a few thousand sorts so far.

All the fabrics produced are **100% inspected, duly classified as per international point system**, controlled for cuttable defects, loose threads and contamination, accurately measured for length, weighed and bar-coded.

We can cater to **various types of packing** - our standard bale packing (fabrics folded to 1 Mt. wide across the width); Open width bales (full width of fabric) or rolled on tubes **depending on your needs, and also in specific piece length.**
