Quality Control

We pay a lot of attention to produce coconut charcoal according to your specification. Every production batch is tested separately. To test coconut charcoal cubes we use laboratory in University of Diponegoro, Semarang. It is an independent laboratory that test our products on ash content, moisture, volatile matter, and other important parameters. We are happy to see your staff in our charcoal factory in Indonesia. You can come any time to monitor the production process and stuffing of the container. Please come to our factory to check the quality or you hire an independent surveyor who will do it for you.

Factory Visit

Please come and visit our coconut charcoal factory in Saltiga, Indonesia. Let us know the date and time of your arrival and we will pick up you at airport in Semarang. We send you our car to bring you and show you our production process. It take about 2 hours drive from the airport to our charcoal factory. We can also help to arrange your accomodation in Semarang. Most of our first-time buyers come and visit our factory for the first time to buy. It is important for you to see the production process, our staff, packing and stuffing of container.

Production Process

1. Raw Material Stock

2. Crushing & Blending

3. Cutting the Briquette

4. Oven / Drying

5. Sorting & Packing

6. Stuffing

7. Burning Test

8. Burning Test

ORIGINAL EQUIPMENT MANUFACTURER (OEM)

Yes, we do OEM production and produce coconut charcoal under your brand & design. All our charcoal is produced under our customer's brands, depend of your request. Send us your design of packing and we will print it for you.

We do not do the design ourselves. Our main focus and specialization are to produce coconut charcoal. We are not designers, we are the manufacturer. Our primary focus is to make good coconut charcoal with specific parameters.

Size of 1 kg coconut charcoal pack is 4 pcs x 3 pcs x 6 pcs. Each piece is 25 mm long. The total size of 1 kg package is 100 mm x 75 mm x 150 mm. Design your package accordingly with these sizes.

Pay your attention, that our price includes printing inner box with standard design on 230 gr carton paper in full color. If you need a different paper or laminating, emboss contact us to recalculate the cost of printing.

PAYMENT TERM

All payment should be made via TT (Telegraph Transfer) bank transfer to our company account in Indonesia. We use Bank of Mandiri, BRI and BCA. We do not accept L/C for the volume of fewer than 10 containers of coconut charcoal. Western Union, Bitcoin, and others not bankable payment are not accepted. Payment should be done in USD, free from issued bank charges.

Payment terms are 50% down payment. After receiving this payment we start production of coconut charcoal, printing inner boxes. To load 1x20" feet container we need 5 working days. After production process is done we are packing charcoal cubes into inner boxes and then master boxes. Labeling boxes according to your requirements. Staffing container with coconut charcoal boxes takes 2-3 hours.

After container with coconut charcoal is shipped we prepare shipping documents : Bill of Lading, Certificate of origin, invoice, packing list. It takes 3-5 days to prepare all documents. Right after that, we send you a fotocopy of B/L and COO. Now is your turn to transfer us to the rest 50% of payment. After we receive payment we send you original documents via DHL or just a telex release.

DELIVERY TIME

We are shipping coconut charcoal from the port of Semarang (Tanjung Emas, IDSRG) Indonesia. Tracking container from charcoal factory to port takes 10-16 hours. By car, it takes only 2 hours, but truck drivers slower. Departure time to destination is every Saturday and Thursday, CY Closing is Wednesday and Friday accordingly

Contained From Semarang	Estimated Transit Time
Port Said (EGPSD/E)	19 – 23 days
Jebel Ali (AEJEA)	15 - 20 days
Khalifa Port Free Trade Zone (KPFTZ)	15 – 20 days
Ambarli (TRAMR)	19 – 23 days
Port Klang (MYPKG)	3 – 5 days
Jeddah (SAJED)	22 – 23 days
Barcelona (ESBCN)	25 – 30 days
Antwerpen (BEANER)	25 – 30 days
St. Petersburg (RULED) , etc.	40 – 45 days

Keep in mind, that transit time and departure date is depending on shipping line and can be different from shipment to shipment.

We sell our coconut shell charcoal on FOB basis, but we are happy to help you to recommend good shipping line. Transshipment of container is usually done Via Singapore or Port Klang, Malaysia. Coconut charcoal production time is 5 days to fill in 20" feet container.
