COMPANY PROFILE

About Us

PT. Moringa Indonesia Fangardana (MORIFA)

PT Moringa Indonesia Fangardana (MORIFA) is established in 2018. We are one of very few specialist company in the world dealing only in Moringa. We are based and headquarter in Jakarta, Indonesia. Our Moringa Oil processing facility is in Kupang, East Nusa Tenggara Province of Indonesia. Currently we are the only producer and exporter of Indonesia Origin Moringa Oil (TIMOR MORINGA®) in the world. We also exports Moringa Dried Leaves and Moringa Leaf Powder worldwide. We commit in providing the best satisfaction we can offer to you, be it in form of Moringa raw ingredients or Moringa finished products

Vision, Mission & Value

Vision

The world see Moringa and its products as something that is very close in their heart, something that they have felt and experienced as something valuable and beneficial to their life that they would eagerly share their love for Moringa with their loved ones

Mission

To be able to supply and collaborate with the world in providing good quality but affordable price of Moringa products, so that anybody who choose to consume it can reap the best benefit for his/her health, beauty and well being as a whole and continue to share such bless to the others

Our Values

Integrity, caring, environmental protection, commitment to satisfaction, always striving for best win-win solution, the desire to grow together positively with all our stakeholders

“MORINGA LEAF POWDER”

What is Moringa Leaf ?

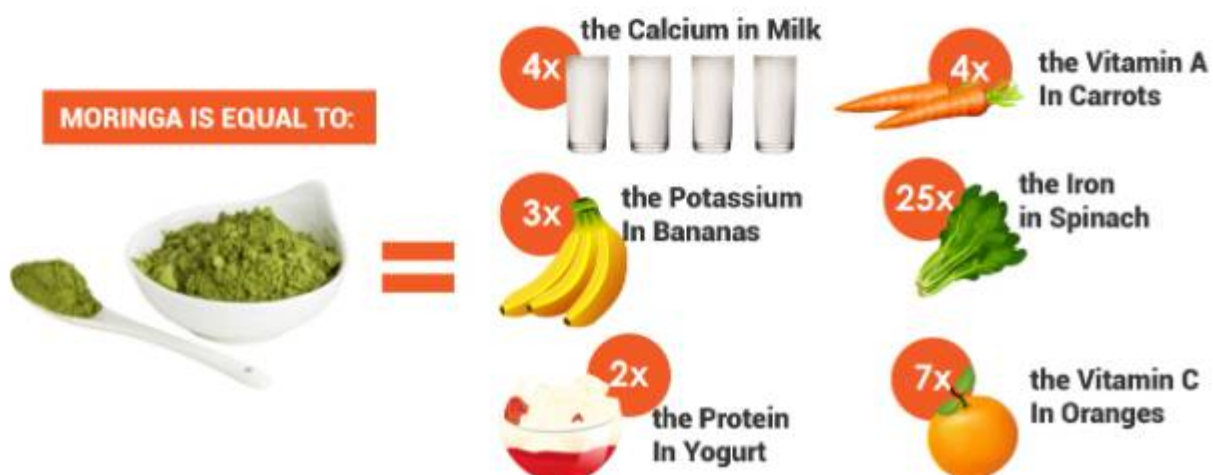

PT. Moringa Indonesia Fangardana (MORIFA)

Moringa has been considered as one of the most nutritious plants ever discovered with most of its benefits concentrated in its small green leaves. The leaves contain all essential amino acids and are rich in vitamin A B C D E K, macro & micro minerals, high in antioxidants and beneficial phytochemicals. Never before a plant with such complete nutrition was found.

Moringa has very important medicinal values. It possesses antibacterial, antifungal, antioxidant, anti-tumor, anti-cancer, antidiabetic, diuretic, anti inflammatory and antipyretic activity. It also possesses hepatoprotective, antiulcer, antihypertensive, anti-hyperglycemic and cholesterol lowering activities. Its various compounds such as polyphenols, flavonoids, alkaloids, phenolic acids and glucosinolates possess tissue protective, anti ulcer, immune modulatory and analgesic activities.

For centuries and in many cultures around the world, the medicinal usage of the moringa has been used to treat problems such as anemia, anxiety, asthma, blackheads, skin infections, blood impurities, bronchitis, catarrh, chest congestion, cholera and many other illnesses

We offer 100% pure high quality nutrient-rich moringa powder, made from the freshly harvested leaves of organic moringa oleifera tree in our estate. Our fresh moringa leaf powder is deep green in color and has a rich nutty smell. The powder is prepared by drying the moringa leaves at low temperature below 40 C so that when grinded, the plant tissue reaches a fine powdered consistency without compromising the nutrients inside.

What is Unique About Moringa Leaf ?

- ✓ Moringa contains more than 90 nutrients and 46 different antioxidants
- ✓ Moringa contains 18 of the 20 essential amino acids required by the human body
- ✓ Natural abundant combinations of vitamins, minerals, iron, calcium and highest level of chlorophyll

“MORINGA OIL”

What is Moringa Oil ?

PT. Moringa Indonesia Fangardana (MORIFA)

Moringa oil is a very versatile ingredient for cosmetic products. Moringa Oil can penetrate deep into skin, leaving no oily residue. Naturally rich in cytokinin zeatin, collagen, Vit C and Vit E, moringa oil nourishes the skin, stimulates cell division, improves skin tone, rebuilds skin's collagen, delays aging of cells, reduces fine lines & wrinkles, increases elasticity. Added with its natural anti bacterial and strong anti inflammatory properties, moringa oil treats against acne, pimples, freckles, dark spots, blemishes, and eczema

We offer 100% pure high quality moringa oil, cold pressed, which retains all the properties of the moringa oil. Moringa oil is extracted by pressing the seeds of Moringa Oleifera tree. We have our own moringa farm and processing facility for Moringa oil in Indonesia. Our Moringa Oil is non-GMO

What is Unique About Moringa Oil ?

- ✓ Outstanding Nutritional Value - Rich in Vitamins, Antioxidants, Antibacterial, Anti Aging Properties
- ✓ Best Oil for Massage - Absorbs easily into skin, no greasy oily feeling afterwards
- ✓ If used as carrier oil, Moringa oil is able to absorb and retain even the most volatile scent
- ✓ The most stable oil on earth - Does not need preservative, does not go rancid for up to 5 years
- ✓ Versatile in its uses in cosmetic industry, can be labelled as natural sources (as opposed to synthetic / chemical / artificial based sources)

Product Application (for illustration only)

- ✓ Anti aging, anti-wrinkle face creams
- ✓ Hair care products (conditioners, shampoo, hair oils, hair masks)
