Pitoelikoer Kitchen

Pitoelikoer kitchen established since June 2020, during the pandemic Covid 19. The Government of Indonesia suggests the citizens stay at home until now. Stay at home and Social Distancing give us the idea to make *shrimp paste chili*. And then we built Pitoelikoer Kitchen.

Raw material shrimp paste Chili comes from the villages around Rembang City. Why we choose local raw material for this product? because we need to help the farmers around Rembang City...Indonesia spice up the world

We produce *Shrimp paste chili* and *fried rice sauce*
