Our Value

Is to growth of our company. but we do not want to grow alone. we want to grow with our customers and our humble staffs. who really do a hard work day and night for growth of our company.

OUR PRODUCT

CARDAMOM

Cardamom, also spelled cardamon, spice consisting of whole or ground dried fruits, or seeds, of Elettaria cardamomum, a herbaceous perennial plant of the ginger family (Zingiberaceae). The seeds have a warm, slightly pungent, and highly aromatic flavour somewhat reminiscent of camphor.

CLOVE

Clove, (Syzygium aromaticum), tropical evergreen tree of the family Myrtaceae and its small reddish brown flower buds used as a spice. Cloves were important in the earliest spice trade and are believed to be indigenous to the Moluccas, or Spice Islands, of Indonesia.

CINNAMONS

Indonesian cinnamon is the stem bark of the Cinnamomum burmannii plant, of the genus Cinnamomum among the evergreen Lauraceae family. reddish brown bark is peeled away from the tree trunk, formed into quills which are then dried and cut to size / into strips or ground into powder. Indonesian Cinnamon / Cassia has aromatic sensory qualities similar to its counterpart of Sri Lanka. It contains essential oil (mainly cinnamic aldehyd) but does not contain eugenol.

OUR PRODUCT

NUTMEG

Nutmeg is the inner brown kernel of the fruit of nutmeg tree, a tropical evergreen tree, indigenous to Mollucas of Indonesia. In fooding, nutmeg are used to delicately flavour meat dishes, as spice mixture for 'garam masala', for cakes and stewed fruits and also to flavour cheese (fondue, bechamel sauce). In medication, nutmeg oil extract is used as counter irritant and stimulates blood flow to the area applied. Nutmeg is reported to be an expectorant, aphrodisiac and as a nervine used by psychiatrists. It is used in tonics and recommended for the treatment of inflammation of the bladder and urinary tract.

BLACK PEPPER

Black pepper (Piper nigrum) is a flowering vine in the family Piperaceae, cultivated for its fruit, known as a peppercorn, which is usually dried and used as a spice and seasoning. When fresh and fully mature, the fruit is about 5 mm (0.20 in) in diameter and dark red, and contains a single seed, like all drupes.

RED GINGER

Alpinia purpurata, red ginger, also called ostrich plume and pink cone ginger, are native Indonesian plants with showy flowers on long brightly colored red bracts. They look like the bloom, but the true flower is the small white flower on top. It has cultivars called Jungle King and Jungle Queen.

OUR PRODUCT

WHITE PEPPER

*White pepper is a spice produced from the dried fruit of the pepper plant, *Piper nigrum*, as is black pepper. It is usually milder than black pepper, with less complex flavor. Both whole and ground white pepper are available.*

COFFE BEAN

*A coffee bean is a seed of the *Coffea* plant and the source for coffee. It is the pit inside the red or purple fruit often referred to as a cherry. Just like ordinary cherries, the coffee fruit is also a so-called stone fruit. Even though the coffee beans are not technically beans, they are referred to as such because of their resemblance to true beans.*

BANANA LEAF

The banana leaf is the leaf of the banana plant, which may produce up to 40 leaves in a growing cycle. The leaves have a wide range of applications because they are large, flexible, waterproof and decorative. They are used for cooking, wrapping, and food-serving in a wide range of cuisines in tropical and subtropical areas.

OUR PRODUCT

FROZEN SEAFOOD

Seafood is any form of sea life regarded as food by humans, prominently including fish and shellfish. Shellfish include various species of molluscs (e.g. bivalve molluscs such as clams, oysters, and mussels and cephalopods such as octopus and squid), crustaceans (e.g. shrimp, crabs, and lobster), and echinoderms (e.g. sea cucumbers and sea urchins).

COPRA

Organic virgin coconut oil is one of the vegetable oil from coconut derived product extracted from the fresh meat or kernel of mature fruit of coconut oil is chemical and additive free, and is the purest from coconut oil. VCO has not undergone chemical refining, bleaching, or deodorizing.

VIRGIN COCONUT OIL

Organic virgin coconut oil is one of the vegetable oil from coconut derived product extracted from the fresh meat or kernel of mature fruit of coconut oil is chemical and additive free, and is the purest from coconut oil. VCO has not undergone chemical refin

OUR PRODUCT

ORGANIC COCONUT SUGAR

Organic coconut sugar is an organic made from coconut tree nectar. Nectar is tapped from coconut tree flowers just before the flowers bloom. The delicious nectar is dried and made into crystals which can be used in the same way as regular sugar.

BRIQUETTE

A briquette is a block of combustible material that is used as a fuel to start and maintain a flame. The most commonly used briquettes are coal briquettes, charcoal briquettes, peat briquettes, and biomass briquettes.
