

Company Profile 2019

ABOUT US

"Our success lies in our human capital.

A happy employee will make a happy customer.

Equality, Achievement and Team Work is the key success factor for enthusiastic employee.

Let's make Gistex the best place to work for... and a place to be proud of.

Our success lies on how much contribution each of us make each day, each hour and each minute.

Star contributing... and We will never miss the future."

Ahadiat Wargana – Chairman

ABOUT US

Gistex is one of the biggest exporters of textile products in Indonesia, producing fabrics containing 100% of polyester. Our sales have already reached 3 million yard per month and been exported to many countries in the world.

Gistex maintains the quality of its products by engaging continuous improvements in management, importing high-quality machines, choosing the best materials , and continuously develop its human resources.

We proudly announce that Gistex was equipped with latest technologies and systems enabling us to meet the exact standards required by customers. It's a proof of our relentless and strong commitment to fully serve our customers.

Gistex always offers better products supported by efficient services, including supplying orders on time adhering to the strict quantity and quality specified by customers.

Our Journey

- 1975

Our family business was founded 38 years ago. Our main building and plants are located in Bandung, Indonesia. We first started as PT. Gistex, and primarily produced commercial spun weaving fabrics : T/C, cotton, rayon, etc. Install Capacity : 1.2 million yard/month.

- 1980

We established spun dyeing / printing / finishing mills with technical know-how from Nitobo partners. Install Capacity : 2 million yard/month.

- 1986

Modernization of our spun dyeing, printing and finishing facilities to penetrate the world market from home market. We started to export our spun fabrics for various export market. Within 10 years, we grew to become a reliable spun-supplier for local market and as one of the leading textile producer.

- 1987

Lagadar and Nanjung Processing Unit began operations of a polyester weaving & processing with Sunkyoung know-how.

Install Capacity : 1 million yard/month. Polyester processing plant is opened with capacity 1 million.

Our Journey

- 1990

We installed 144 sets of shuttle loom's to increase polyester weaving.
Install Capacity : 1.2 million yard/month.

- 1993

We established a new polyester processing plant to upgrade product capacity. We acquired a "Primaniyarta Award" from the Indonesia government as "The Highest Achiever In non-Oil & Gas Exporter"

- 1994

Purwakarta Weaving Unit is completed with another new polyester Weaving Unit in West Java Indonesia. We executed a number of projects to expand Lagadar Weaving Unit and Lagadar Processing Unit.

- 1997

We established PT. Gistex Chewon Synthetic (G & C) with other Korean and Japanese Company to produce special texturizing yarns and special high-twisted fabrics. Install Capacity : 400 ton/month.

Our Journey

- 1998

We official launched PT. Gistex Nisshinbo Indonesia (G & N) as an alliance with Japanese Company to Specialize in cotton dyeing. Install Capacity : 2.5 million yard/month.

Lagadar Weaving Unit equipped more facilities to produce high twisted and high quality spun or filament fabric using natural yarns. Nanjung Processing Unit modernized its production lines to process high quality viscose fabric and other special spun fabrics. Install printing capacity 500.000 yard/month.

- 2000

April 2000 Achievement:

“Asean Development Best Economic Executive Awards 2000-2001”

All units are certified for the ISO 9002.

- 2004 - 2006

Lagadar Processing Unit increased additional dyeing and printing.

Install Capacity : 3.5 million yard/month. Weaving polyester capacity increased to 1.6 yard/month.

G&C Unit in increase capacity to 1.000 ton/month.

- 2007 - 2009

PT Gistex bought some new machine for production support. Dyeing unit is upgraded.

In this time, PT Gistex installed some new machine for integrated Dyeing Production System.

Our Journey

- 2010

From 2010 until now, we continuously upgrade the machine and the building and also PT Gistex Nishinbo Indonesia apart from PT Gistex with processing capacity achieve 3 million yard/month and weaving production result has been achieved 2,3 million yard/month. We Commit to get Green Proper From Ministry of Environment Indonesia.

We Want to show that we can become the only one textile industry company which can get the Green Industry that we usually said with “Gistex Go Green”. Gistex Go Green is a realization of our case with our environment and we realised with doing more and balance contribution we can keep and serve our the environment In our company and outside our company.

- 2011 - 2017

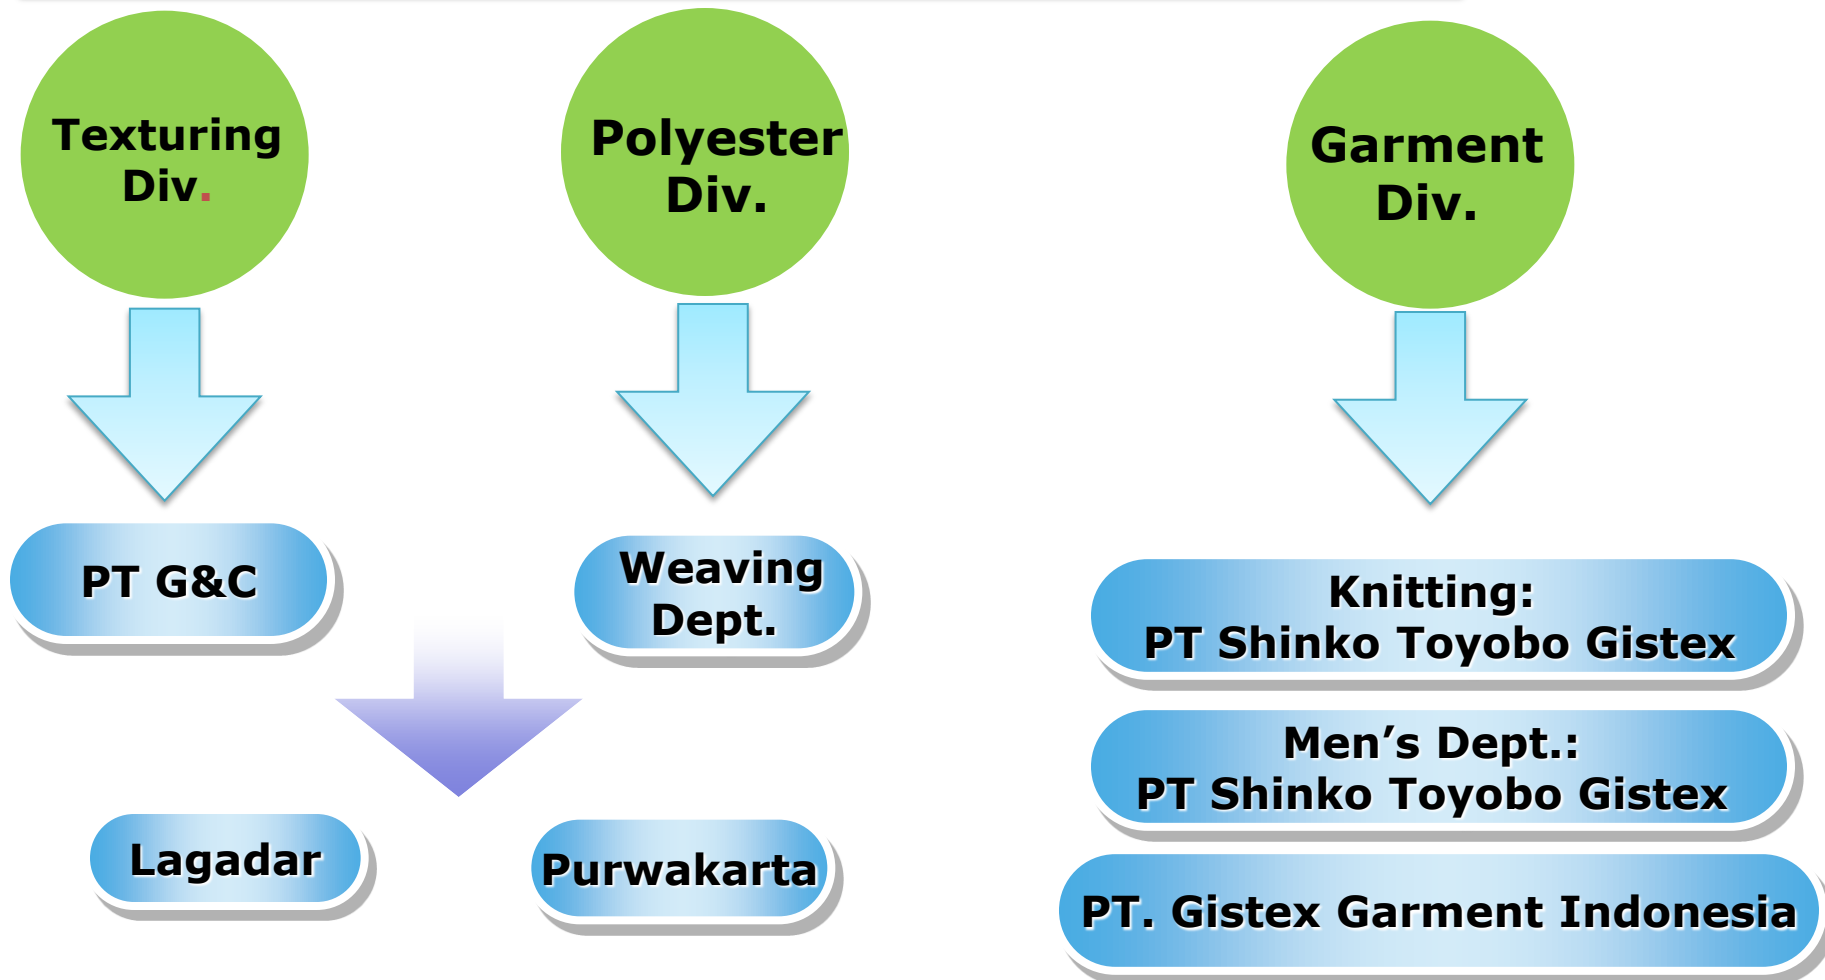

This period is a business resurrection of Gistex. We kept replacing old machines with new technology to improve the quantity and quality of the fabrics production. Gistex launched 3 million yard/month production capacity and it reached 2.9 million yard/month. Gistex's markets are primarily Midde East and Europe. From year to year Gistex is striving to be a greener industry. “Gistex Go Green” is a proof of its concern to environment and a willingness to do more things to help the environment, both inside and outside the company.

2017 Achievement:

“Primaniyarta Awards, Gistex is one of the best exporter company in Indonesia”

GISTEX GROUP

TOTAL GROUP REVENUE : USD 200 MILLION / YEAR

VISION & MISSION

Vision

To be best managed group of companies

Mission

To be a valuable asset for the nation, community, and investors

To facilitate and provide facility for the organization members to reach their dream

To be the preferred provider of services and products for the customers

OUR VALUE

GENEROSITY

We are a loving giving serving person. We commit to love, give and serve all Gistex stakeholders according to the Gistex vision, mission and value in order to achieve harmony

INTEGRITY

Integrity start from us. We always communicate the truth positively for good purposes. We always stick to the promises and take responsibility for our action and our result. We will firstly change before we ask others to change.

SUCCESS

We live a successful life, We're focussing our mind, body and soul to succeed. We success when We can do something usefull to the people around us by being part of Gistex, we know we're adding value to the society.

TEAMWORK

We're a team player. We do whatever it takes to achieve Gistex goals. We focus on co-operation and always come to a solution. We are flexible and able to change if what We do is not working or not generating result as originally planned.

EDUCATION

We consistently learn and grow to be an expert person, so that we can help our team member and all people around us to learn, grow, and master too. We are knowledgeable and love to share our knowledge to reach a better future for all of us.

XCELLENCE

We consistently deliver outstanding or extraordinary quality products and services that add value for long term. Great just isn't good enough so we challenge our self for continuous improvement through innovation and creativity.

AWARDS

[illegible]

***PRIMANIYARTA
AWARD 2015 &
2016, 2017***

A golden trophy with a stylized figure holding a globe, mounted on a dark blue base. The figure is composed of two curved arms raised upwards, holding a globe in the center. The base is a dark blue, cylindrical shape with some text on it. The trophy is set against a light blue background.

is granted authorization according to STANDARD 100 by OEKO-TEX® to use the STANDARD 100 by OEKO-TEX® mark, based on our test report
4418

for the following articles:

Dyed and finished 100% polyester woven fabrics – all shades. May include material repellent finish. Partially based on pre-certified materials according to STANDARD 100 by OEKO-TEX®.

The results of the inspection made according to STANDARD 100 by OEKO-TEX®, Appendix A, product class II have shown that the above mentioned goods meet the further-ecological requirements of the STANDARD 100 by OEKO-TEX® generally established in Appendix A of products with direct contact to skin.

The certified articles fulfil requirements of Annex I(B) of REACH (incl. the use of azo-substances, nickel release, etc.) as well as the American requirement regarding lead content of thread in relation to article CPSC, with the exception of accessories made from glass.

The holder of the certificate who has issued a conformity declaration according to ISO 19000-1, is under an obligation to use the STANDARD 100 by OEKO-TEX® mark only in conjunction with products that conform with the sample initially tested. The conforming is certified by audit.

The certificate 09-4320 is valid until 17.06.2018

CERTIFICATION

Our Growth

- In 2017 our sales more than \$45.000.000

- Amount sales in 2018 : \$50.785.473

Future Outlook

Target 2019:

→ Continued strong growth with adding new machine for production support

Amount target in 2019 : \$55.000.000

FACILITIES

- **WEAVING**

To engage in weaving, Gistex involves two units: Lagadar dan Purwakarta.

Together with those workers, Lagadar and Purwakarta unit is able to produce greige fabrics by total production of 3 million yard/month. This success was supported by the newest production machines from Toyota Japan.

- **PROCESSING**

Processing is the next step of greige fabric. The main step of processing is dyeing. Dyeing is a process of giving permanent color (not faded and thoroughly) to the fabric. The time needed for dyeing process is influenced by the amount, type, weight, and color of the fabrics.

RESEARCH & DEVELOPMENT

Quality is the most precious thing in products. We believe that quality never comes by accident. It comes from hard work and it is the result of huge efforts. For this reason, we are preparing all segments to reach ISO 14001, ISO 9001, and OHSAS to answer the challenges in the future.

Whole weaving units always try their best to produce fabrics from special thread with special design. We develop our business by focusing in R&D to produce high quality product. We only produce high service and quality.

RESEARCH & DEVELOPMENT

To ensure our quality, we do some test to our new product include:

- ✓ **Physical Test** : *Tensile Strength, Tear Strength, Seam Slippage, Pilling & Snagging, and Dimensional Stability*
- ✓ **Chemical Test** : *Washing Fastness, Perspiration Test, and Rubbing Fastness*

ENVIRONMENT

Gistex, environment, and society are one that cannot be separated. Gistex is responsible to protect the environment preservation since its establishment. Gistex chooses raw materials that are environment friendly. Gistex does not dispose waste to the river, but does some cultivating programmes around the mills areas.

Since 1987, Gistex has imposed waste water filtration system in order to avoid environmental pollution. The enhancement of handling waste water is continuously implemented. In 2012, Gistex built water recycle program with billions rupiah investment. Through this program, the waste water of the mills is recycled so that it can be reused for production process.

PRODUCT

PT. Gistex produce high quality 100% polyester woven dyeing fabric for ladies wear purpose. Our product divided into many categories. Example acetate touch, stretch suiting, double weave, dress, linen look, structure, chiffon, satin, blouse, Abaya and suiting.

We also produce the fabrics with special finishing like washer effect, water repellent, UV cut, anti bacterial, quick dry finish, etc. Wide variety of our product will fulfill our customer requirement

PRODUCT CATEGORY

Suiting

- Purpose : Blazer, trousers, skirts, coat, etc
- Weight : ≥ 200 gram/m²
- Other : Regular or Formal Black color

Dress

- Purpose : Dress, gown, etc.
- Weight : 160-199 gram/m²
- Other : Regular or Formal Black color

Blouse

- Purpose : Blouse, shirt, etc.
- Weight : 130-159 gram/m²
- Other : Suitable for washer effect

Lingerie

- Purpose : Ladies undergarment
- Weight : < 100 gram/m²
- Other : Lightweight satin, regular color

Abaya

- Purpose : Mosleem ladies wear
- Weight : 135-199 gram/m²
- Other : Formal Black color

Thobe

- Purpose : Mosleem men wear
- Weight : 130-175 gram/m²
- Other : White & cream color

Scarf

- Purpose : Hijab, veil, tarha, etc.
- Weight : 55-129 gram/m²
- Other : Regular or Formal Black color.
