100% Coconut Shell Charcoal

Coconut Charcoal

Briquette coconut charcoal is made from 100% real coconut shell and bound with natural binders.

It formed into various shapes such as cube, fingers, hexagonal, and others by request. The high quality of charcoal will be smokeless, odorless and no crack.

It suitable for shisha and household needs, such as barbeque, metallurgy and stove fuel.

Cube

Size as per request

eg.

25x25x25 mm

26x26x26 mm

Finger

Size as per request

eg.

18x50 mm

20x50 mm

Hexa

Size as per request

eg.

18x50 mm

20x50 mm

Product

We produce premium quality of
Coconut Charcoal Briquette

Premium

Ash Content : 1.9 - 2.5%

Ash Colour : white grey

Moisture : 6-8%

Drop test : 3 times x 1 meter

Burning Time : 3 hours

Specification

Get free samples of our coconut charcoal.

1 kg sample of cube size coconut charcoal.

Samples are free, delivery by DHL paid by the customer

Desiccated Coconut

Desiccated coconut is produced from the white part of fresh, mature coconut kernel. The white part is disintegrated or shredded into desired sizes such as flakes, granules, chips or shreds. Then it is dried in hot air at 50-55 degree centigrade. It is available in toasted, sweetened or sweetened toasted forms.

Desiccated coconut can be used as an ingredient in savoury and sweet recipes both to impart a coconut flavour and texture and as a topping or coating. Dried coconut is delicious eaten by itself as a snack, added to hot or cold cereal, and as an addition to baked goods.

High Fat

Fat Content : 65% +/- 5%

PH : +/- 7

Moisture : < 3%

Colour : White Natural

Residual SO₂ : < 50ppm

Ingredients : Dry without preservatives, free from Salmonella and Ecoli

Packing : 5 / 10 / 25 Kg

Unrefined natural cooking oil

Coconut Cooking Oil

Coconut cooking Oil is natural non-(bad) cholesterol oil. Made from good quality freshly mature coconuts milk. This cooking oil is more natural and thrifty oil because it is clear liquid, so the oil can be repeatedly used for deep frying.

A tropical miracle for balanced and nutritious diets. Good for baking, frying, as salad oil as well as health therapy. It can be used as healthy substitute to butter and margarine, edible oil for diabetics, can treat constipation and its antibacterial, antimicrobial, antifungal and antioxidant agent.

COCONUT COOKING OIL

HEALTH ANALYST

HIGH SMOKE POINT

Deep-Frying

Good for repeatedly use

-The more refined an oil, the higher its smoke point, because refining removes impurities and free fatty acids that can cause the oil to smoke.

-The smoke point of refined coconut oil is 400°F, which makes it a better option for frying or cooking at higher temperatures. In most cases, you can substitute coconut oil 1:1 for other oils and butters.

GOOD CHOLESTEROL

Healthy Lifestyle

New way to cooking

-It's rich in a medium-chain fatty acid called lauric acid, which may behave differently in the body from other saturated fats.

-These fatty acids, coconut oil may, in fact, improve "good" HDL cholesterol levels.

-Coconut oil contains natural saturated fats that increase HDL (good) cholesterol levels in your body. They may also help turn LDL (bad) cholesterol into a less harmful form.

ANTIMICROBIAL

Herbal Substitute

Medical Alternatives

-coconut oil can also help boost thyroid function and ward off illness-causing bacteria and viruses.

-It's also a great animal-friendly alternative to butter.

-substitutes coconut oil for butter in the resort's vegan dishes.

Pure virgin coconut oil

Virgin Coconut Oil

Our 'Virgin Coconut Oil' is extracted from freshly mature coconut meat without drying first. "Coconut milk" is expressed first by pressing it out of the wet coconut meat. The oil is then further separated from the water.

Extracted from Fresh Coconut Milk; 100% Natural, Cold Pressed & Unrefined. Can be used as a Dietary Supplement for Skin, Hair & Baby Care. Promotes Healthy metabolism & Improves Immunity. Excellent Natural Moisturiser & great for Dry Skin & Nourishment of Skin. Prevents hair fall, Controls Dandruff & Strengthens Hair.

VIRGIN COCONUT OIL

HEALTH ANALYST

HEALTHY

Medical Alternatives

Heal, Metabolize & Defend Body's

- When applied externally it forms a protective antibacterial layer protecting the infected body part.
- It's rich in lauric acid, a nutrient that supports the body's immune system.
- It's rich in lauric acid which protects your heart by reducing total cholesterol and increasing good cholesterol
- It can aid in lowering obesity levels in the body and also battles insulin resistance - issues that often lead to type two diabetes.
- The MCFA component in coconut oil - especially its generation of ketones by the liver - aids in mending brain function in Alzheimer patients.

TREATMENT

Cosmetic Substitute

Good for Skin and Hair

- When applied externally it forms a protective antibacterial layer protecting the infected body part.
- Moisturizing dry skin, including in people with conditions such as eczema
- reducing inflammation, which may result from UVB rays
- antibacterial, antifungal, and antiviral properties
- it easily penetrates the strands and can even prevent protein loss, when used as hair conditioner.
- Soften locks with a spa-worthy hair mask. Massage onto hair and cover with a shower cap.
- add a little shine if you have dark hair.
- Coconut oil can help lower the levels of yeast on the skin that drive inflammation, flaking, and itching associated with dandruff.

Coconut Fiber

Coconut fibre is a natural fibre extracted from the husk of coconut. The coconut is steeped in hot seawater, and subsequently, the fibres are removed from the shell by combing and crushing. The producer of this fiber product sells this product naturally or woven into mats for lining window baskets and wire hanging planters. Not only for industrial use, but it can also be used as a planting medium because it has an overall neutral pH level.

Specification

Colour : Golden Brown

Length of Fiber : 5-25cm

Moisture : 5%

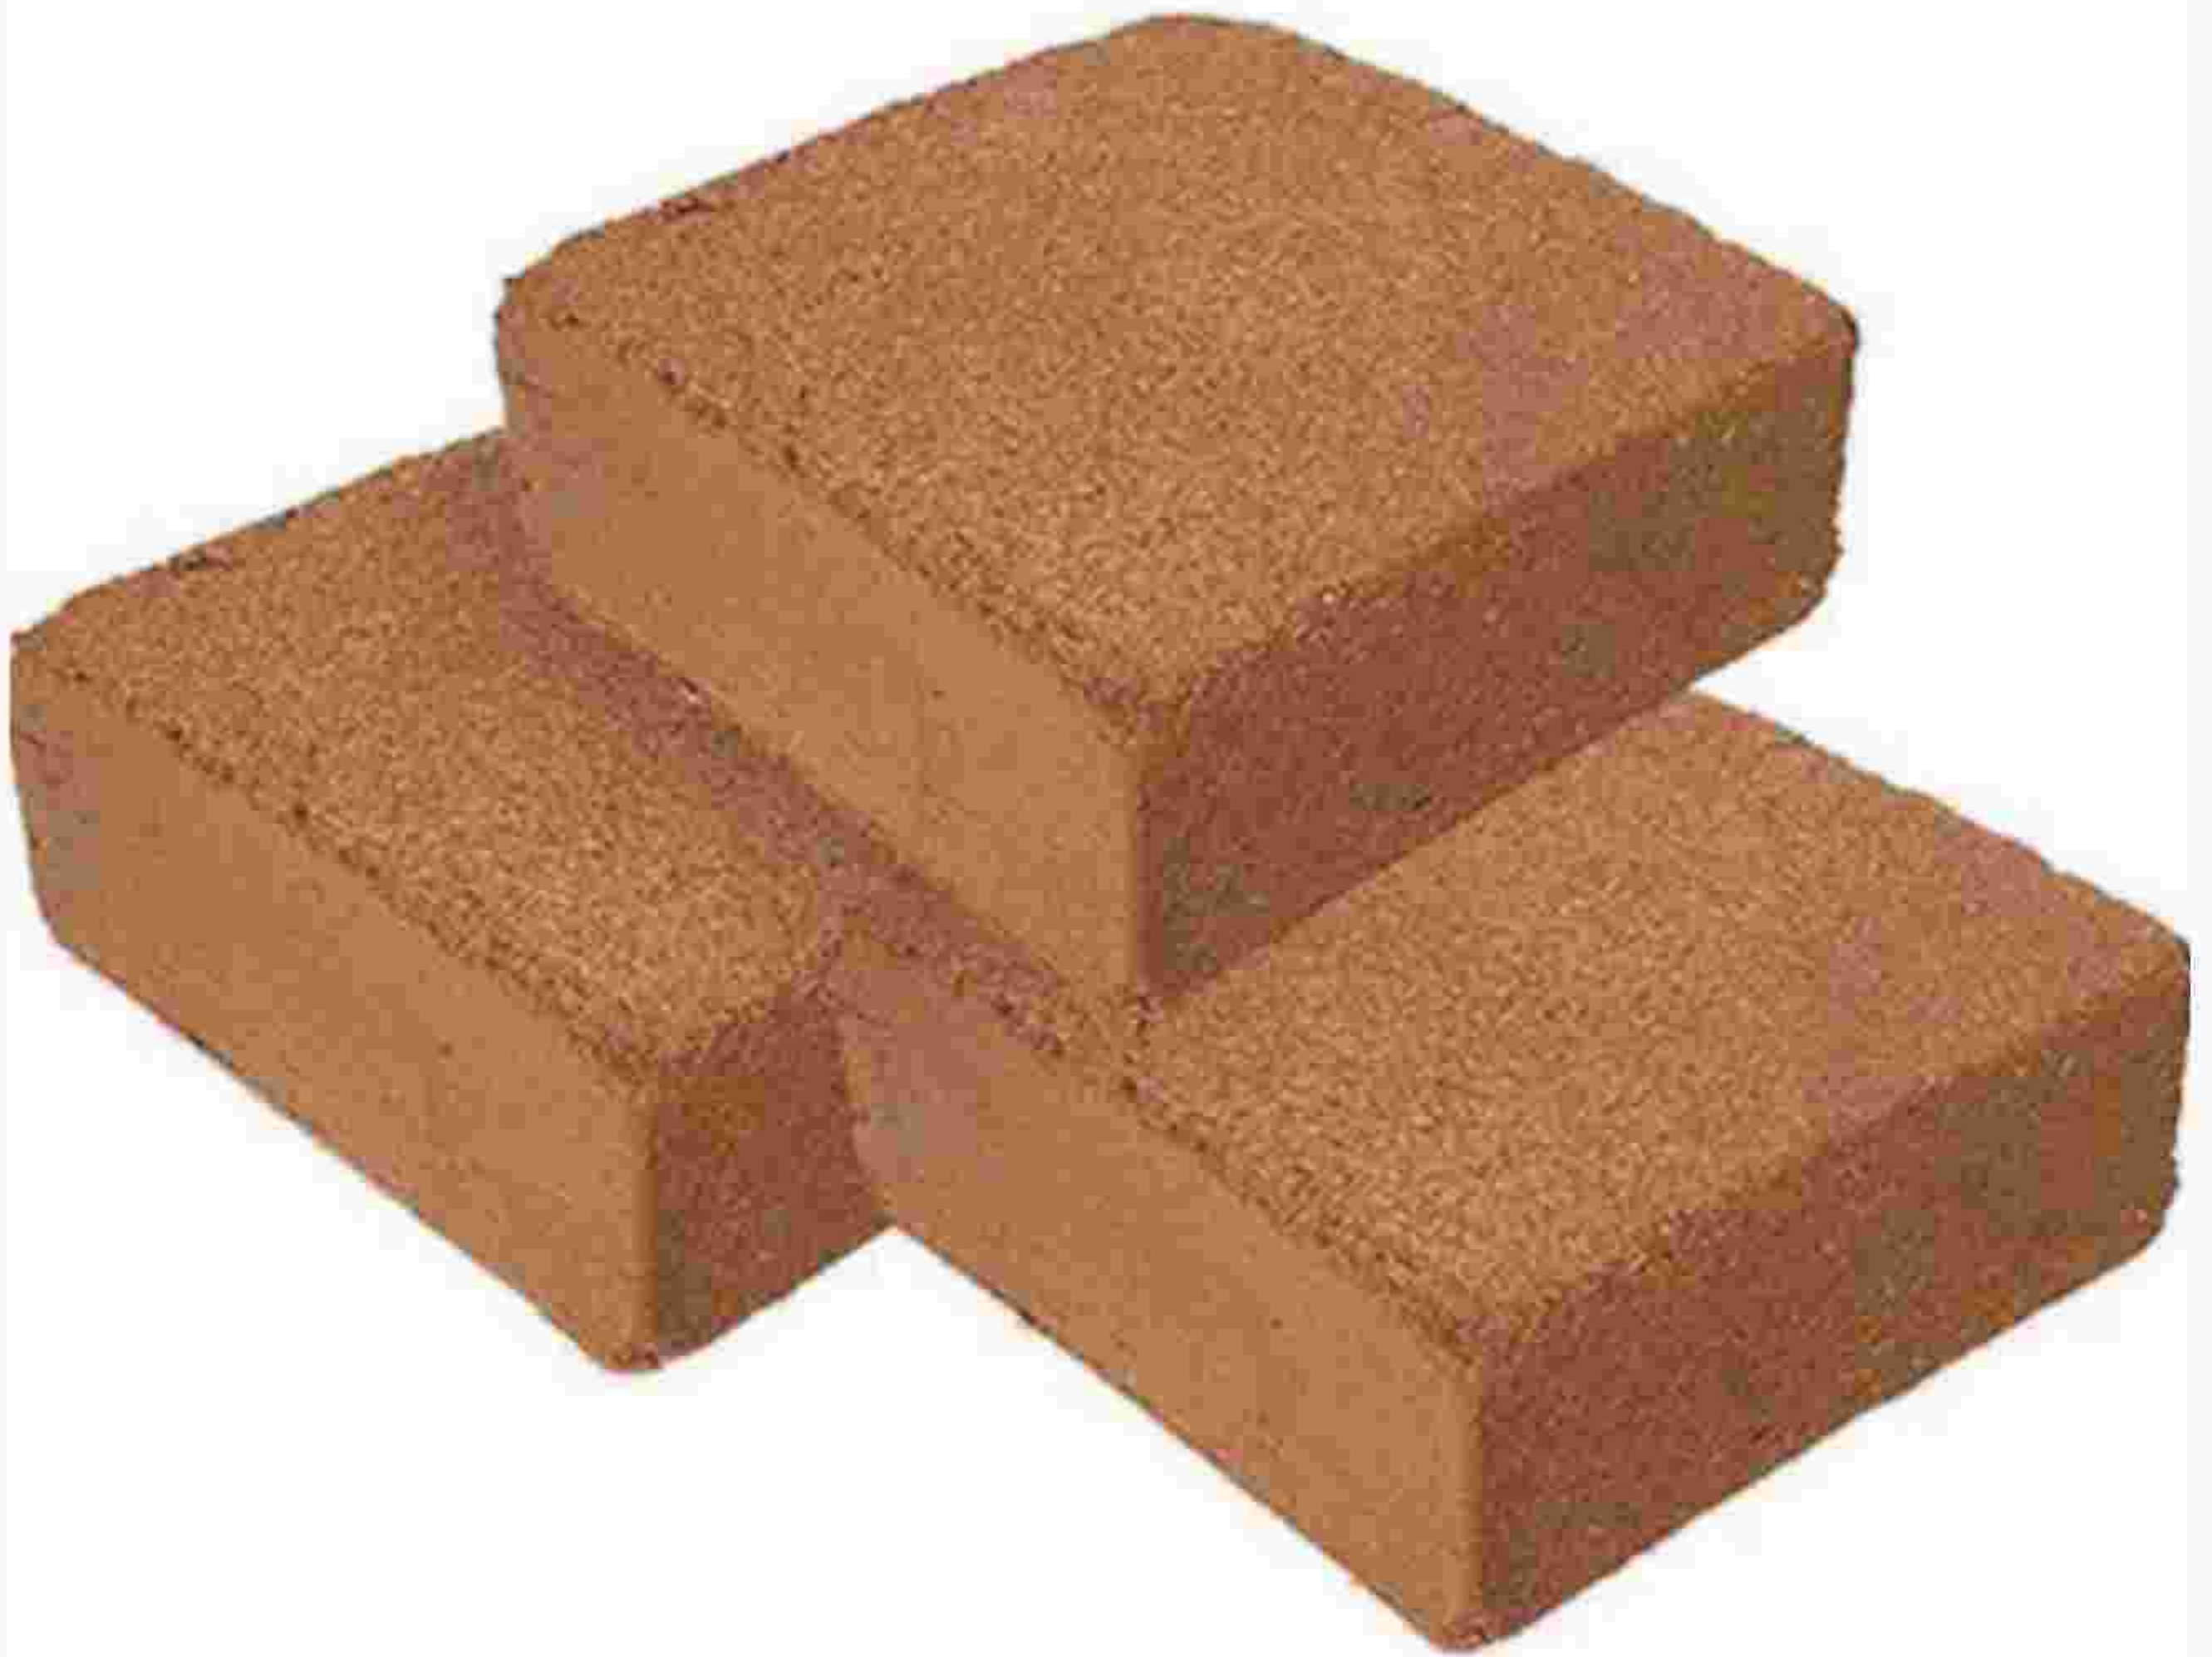

Dust of Content : 10% Max

Impurity : 8% Max

Impure : 3%

Packing : 110-150 Kgs/Bale rope by plastic band

Cocopeat Blocks

Cocopeat is natural fibre made out of coconut husks. The extraction of coconut fibre from husks gives us this by product called coco-peat, which is a 100% natural growing medium. This cocopeat dried in the natural sun is processed to produce different items namely cocopeat block, coco peat briquettes, cocopeat tablets, etc.

Cocopeat is a very good alternative to traditional peat moss and Rock wool. Its air filled porosity and high water holding capacity makes it, an ideal growing medium for the plant crops. It is 100% organic and eco-friendly, free from soil borne pathogen and weed. It has a pH of 5.7 – 6.5 ,EC level <1 mS/cm is ideal for plant growth.

High EC

Size : 30 x 30 x 12 – 15cm

Weight : $\pm$ 5 Kg

Electrical Conductivity : $< 1.6\text{mS/cm}$

PH : 5.0 – 7.0

Moisture : $< 25\%$

Short Fiber Content : $< 10\%$ (2mm)

Load Ability : 20 Tons in 40Feet HC Container

Packing : Palletized with shrink film

Low EC

Size : 30 x 30 x 12 – 15cm

Weight : $\pm$ 5 Kg

Electrical Conductivity : $< 0.5\text{mS/cm}$

PH : 5.0 – 7.0

Moisture : $< 25\%$

Short Fiber Content : $< 10\%$ (2mm)

Load Ability : 20 Tons in 40Feet HC Container

Packing : Palletized with shrink film

Healthy alternative sweetener

Organic Coco Sugar

- *Certified Organic*
- *Non-GMO*
- *Low Glycemic Index*
- *Low Calorie*

Our 'Prococonuts Organic Coconut Sugar' (also called coconut palm sugar or coconut crystals) has become a popular alternative to white sugar due to its flavour and perceived health benefits. It's also viewed as being more natural, or less highly processed, than table sugar.

According to Nutrition Research Institute, coconut sugar has a lower glycemic index (35) than white sugar (60 to 65), meaning it doesn't spike your blood glucose and insulin like table sugar does. Glycemic index values of 55 or less are considered low; values of 70 or more are high.

Quick Details

- Type : Organic Coconut Sugar
- Shape : Granulated
- Type of Processing : Unrefined
- Color : Light Brown
- Moisture : 2%
- Icumsa : 45 / 100 / 150 / 600 - 1200
- Brix (%) : 70
- Purity (%) : 99
- Place of Origin : Central Java, Indonesia
- Ingredient : 100% Coconut Sap
- Grade : Premium Grade
- Mesh : 16
- Certified : HACCP, NOP, EU, Halal, FDA
- Self Life : 1 year
- Supply Ability : 220 MT Per Month

Specifications

- Trade Term : FOB, CNF, CIF
- Payment : L/C, T/T
- Shipping : By Sea
- Bulk : 20Kg / 25Kg Carton Box
- Packaging : Pouch, Bottles, Boxes, Sachet, Paper Sack, Bulk
