Company Profile

SUTRADO
KABEL

Quality
through excellence

About Us

A well-established and reliable name in the manufacture and distribution of high-quality wires and cables.

PT. Sutrakabel Intimandiri (SUTRADO kabel) is a premier cable manufacturer in Indonesia offering an extensive range of high quality products and superior after sales services. Supported by a dedicated team of professionals, SUTRADO kabel is continuously improving its quality and services excellence for customer satisfaction.

We set high standards in everything we do and determine to bring the best quality and services in the cable industry. Building a strong relationship with our customer is our priority and we are committed to deliver the quality and convenience that our customer deserves.

Continuously growing since our establishment in 1991, we have gained recognition within the industry as a reliable and trusted cable manufacturer for a large number of customers from domestic market that includes reputable state owned enterprises, such as **PT. PLN (Electricity)** and **PT. Pertamina (Oil and Gas)**, as well as international customers from countries, such as United States, Myanmar, Iraq, Mozambique, East Timor and many others.

Vision & Mission

To become an excellent company dedicated to our customer with mission to be a leader in high quality cable manufacturer in Indonesia, supported by talented, fast, effective and efficient human resources.

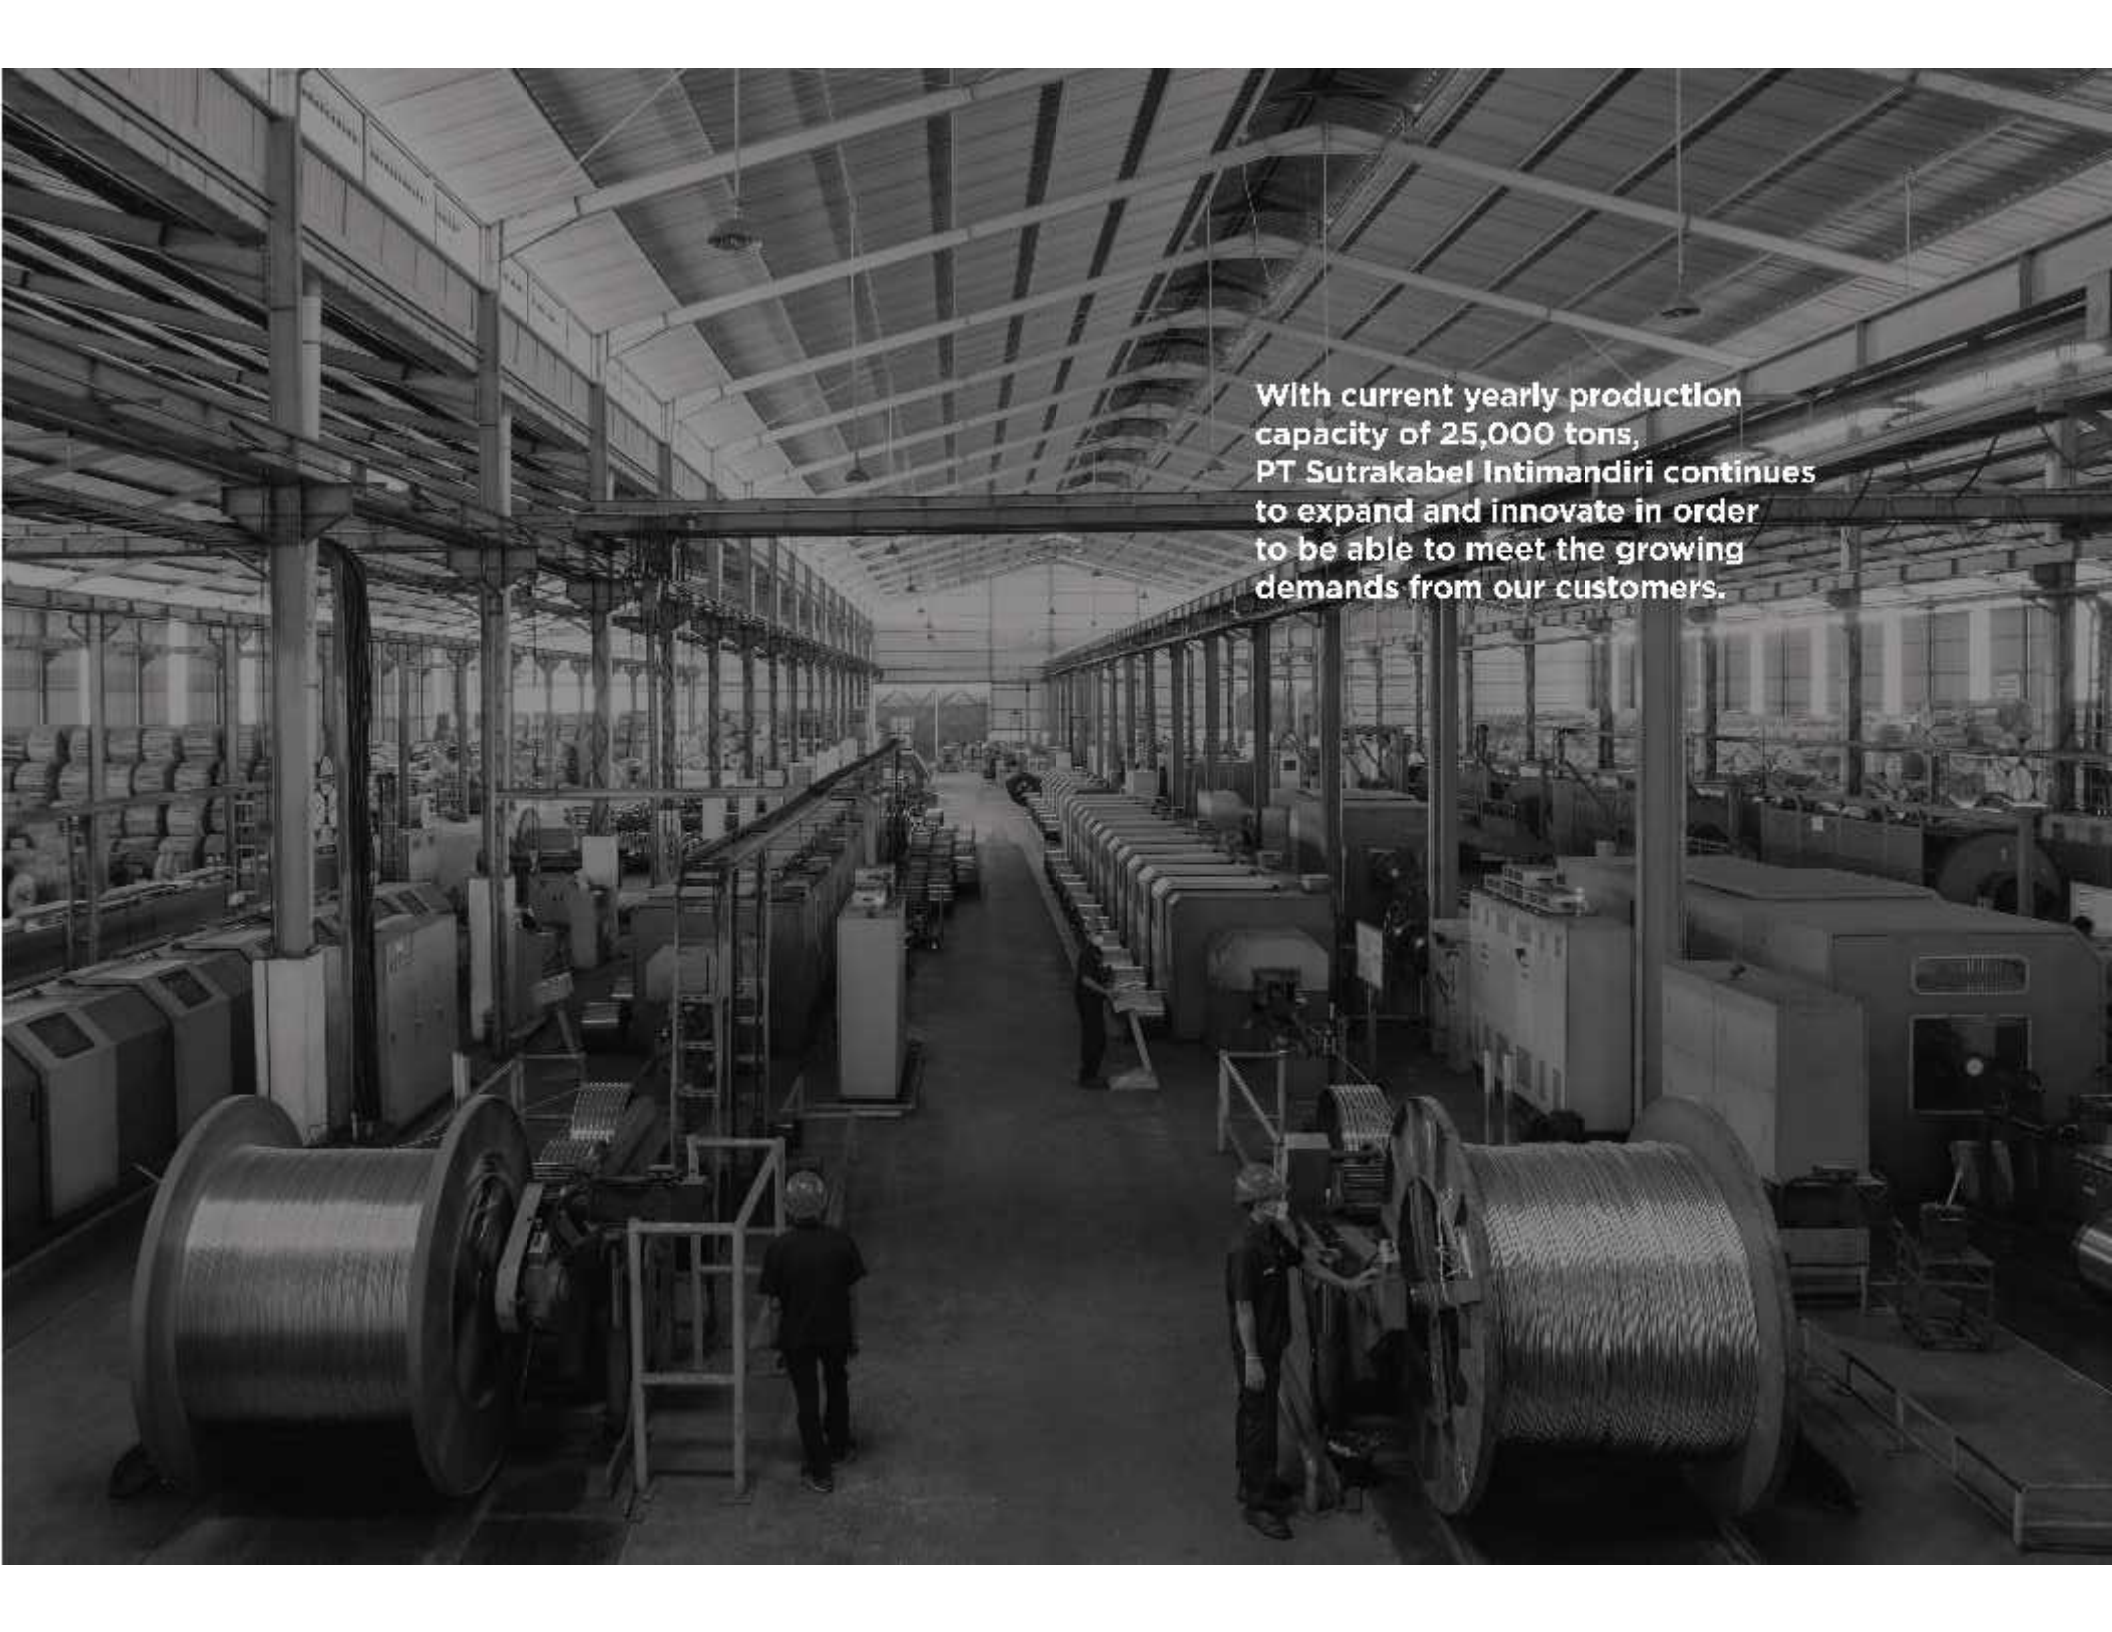

Our Products

Our products are widely used in various electrical applications and available in various types and sizes to accommodate for best application in different electrical installations, including:

- Low voltage power cable with rated voltage 300/500 V; 450/750 V; 0.6/1 (1.2) kV
- Medium voltage power cable with rated voltage 3.6/6 (7.2) kV; 6/10 (12) kV; 8.7/15 (17) kV; 12/20 (24) kV; 18/30 (36) kV
- High voltage transmission and substation installation (overhead transmission)
- Commercial, industrial and residential installation
- Copper Buss bar for panel grid and switchgear installation
- Copper rod for copper grounding
- Product customizing

All products are manufactured at our modern facility in Bogor, Indonesia, and have to pass through a rigorous inspection process to ensure best delivery of the products and compliance to any related industrial requirements and standards.

With current yearly production capacity of 25,000 tons, PT Sutrakabel Intimandiri continues to expand and innovate in order to be able to meet the growing demands from our customers.

Core Values

Excellence

We set high standards in everything we do. We strive to be the best, embrace change and continuously challenge ourselves to keep improving. We believe by striving for excellence in everything we do, we are keeping a promise to deliver excellent products for our customers.

Reliable

Reliability in the quality and delivery of our products and services is close to the heart of our customers. Therefore, to manufacture products that are in the best quality, to be able to meet our customers' demands in timely manner, to be able to provide solutions to customers' needs, and to continue to be innovative with our products and services, are high in our priorities.

We listen to you and deliver what you need.

Committed

With more than two decades of proven experience, we always keep our commitment to our customer in delivering products and services that are best in quality as well as after sales service support.

Efficient

Our company continues to invest in professional developments and continuous improvements in our operational systems to achieve speed and efficiency in all operations and distributions.

Industry

The ongoing infrastructure developments of the bustling and vibrant cities throughout Indonesia will continue to need a lot of support, especially in the electrical system.

As a proud supplier to state-owned enterprises, building contractors, manufacturing companies, oil and gas companies as well as distributors in the country, SUTRADO Kabel is committed to continue supporting the government as well as the private sectors by providing high-quality cables, reliable custom engineering and fast services.

We look forward for a bigger participation in the developments of major construction projects, electrical grid and commercial and residential constructions around Indonesia, which subsequently can provide more benefits and opportunities to the nation as a whole.

Our Clients

SUTRADO Kabel serves the extensive range of customers for more than two decades. We gained the recognition across the globe as the reliable and trustable wiring system manufacturer.

Our loyal Customer are ranging from public to private sectors in the scope, both domestic and international.
