The Restriction of Hazardous Substances Directive 2002/95/EC, (RoHS 1), short for Directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment, was adopted in February 2003 by the European Union.

FOUNDER INSIGHT

Dear Valued Customer,

More than 2 decades experience in the industry requires continuous improvement on every element in our business. Consistency and adaptation are the keywords in our sustainable business development program. The value of consistency is absolutely needed in developing a strategic partnership – based production system, yet we believe that a constant program of Research, Design and Development could create differentiation on our products as well as services.

In order to maintain our growth, we conduct a continuous research on products, market trend and inline with the human resource development and also other social responsibilities. As time goes by we have been developing many products with various kinds of material. Started with rattan, an assortment of wood and metal, and nowadays we develop products in other exotic & eco-friendly materials such as natural fibers, sea shells and recycle material (especially our industrial waste). In terms of design, we keep developing loose and built-in furniture, yet fully assembled and knock down furniture. Regarding to market segment, we experienced in serving global and domestic market and our production capacity could supply the needs of wholesaler, retailer, and interior projects (commercial, hospitality and residential).

HARI BASUKI
Commissioner

Another success statement is to manage the process of regeneration. We should ensure the transition between generations could be smoothly implemented to support company's growth. The style of management participation is applied to empower creative talents from every division, to ensure the creative talents career path and also provide a creative and sustainable working atmosphere.

Last but not least, digital era requires us to invest in the information and communication technology. We keep constructing our websites and e-commerce platform in order to keep closer to our valuable customers. Believing the ability to be flexible and adaptive are the requirements to win the hyper competition in current dynamic market. Finally, policy strategies of the company are expected to achieve the company target to continue creating high-end standard partnership production system, maximize customer satisfaction and benefits to society.

J.B. SUSANTO S.B.
President Director

OUR RESPONSIBILITIES

We believe the success is not only defined by expanding our business and achieving target, but also by spreading positive impacts for the stakeholders as well as our environment.

Wisanka has participated in the preservation of the environment by planting teak trees 650 thousand in 1999. Such activities continuous to be carried out sustainability of forest. Nowadays, we concern used legal materials and keep developing another eco-friendly materials.

The strength of our production system is designed by a consistent Research, Design and Development program together through the reliable quality control.

SOCIAL RESPONSIBILITY

In terms of keeping the sustainable production skills and craftsmanship, we realize the important of continuous collaboration with the stakeholders and institutions who involve in the industry. We create a collaboration system with the academic institution, group of craftsmen as well as industry expertise.

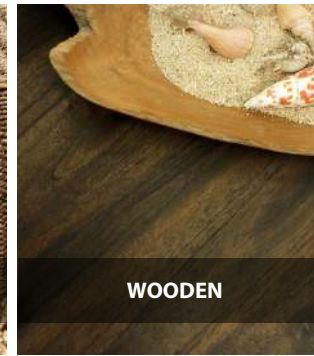

SAFETY AND HEALTHY WORKPLACE

We committed to provide a safe working environment, since safety is our priority to prevent workplace accident, health issues, and pollution that can be a threat for the safety of our creative talents.

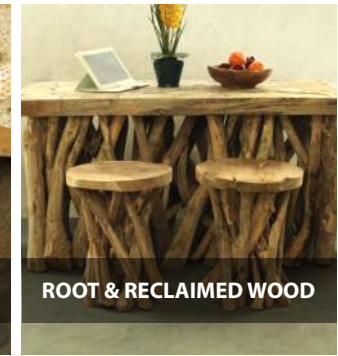

Maximizing Research, Design and Development process to create sustainable product concept which is friendly and beneficial to the environment. Using environmentally friendly and certified legal material while keep continue exploring materials that have no impact on nature and human life.

WHY CHOOSE WISANKA

Presenting the best quality and best services for our customers are our main target. We do neatly, in time, and with a wholehearted to process our product. Therefore, be the right choice to have a business partnership with us by considering the following :

EXPERTISE

We have been in furniture industries for more than two decades. We create furniture from many different materials in various design. Our expertise in this business is supported by our professional team. Our loyal customers reach in several countries, such as Japan, Chile, Egypt, Bulgaria, Australia, Korea, Spain, New Zealand, Mexico, UAE, Libya, Lebanon, South Africa and many more.

QUALITY

We are fully aware that just as goods are beautiful if they have defects or are easily damaged it will reduce the value. Therefore, we have an excellent quality control team in each line in our production in order to ensure quality consistency in accordance with our standards. We are supported by reliable craftsmen and a well-managed production system that is responsible for checking from raw materials to ready products with details.

ECO-FRIENDLY FURNITURE

Water hyacinth, sea grass, banana leaf, abaca leaf, rattan is the main material of our furniture products. Those material are actually wasted, but with our creativity and brilliant ideas that we bring into products all over the world. Our production helps our environment to turn waste into more valuable products. In addition, we use an environmentally friendly finishing material using a water base as a solvent. Woven material and paint finishing are both safe for workers and our environment.

COMPETITIVE PRICE

We ensure that our prices are competitive with other competitors in the market regards to quality. We provide wholesale prices with high quality.

BEST SERVICES

We always give our best services with our best agent. We provide with manner and assist our customer from very first deal to the end. In addition, we open with further discussion for any complain about our product.

OUR DESIGNERS

Presenting to the world our original designs collection from indoor to outdoor furniture with the exploration of natural material from wood to rattan, fibers to metal.

PT Wirasindo Santakarya (WISANKA) has a commitment to develop various product designs in a sustainable manner.

Our designs are collaboration between the Indonesia natural and cultural resources with the strength of local skillful craftsmen.
